About Me

Experienced **Software Engineer** specializing in building scalable, high-performance web applications and enterprise-level backend systems. I have hands-on experience leading full-stack development across the entire software lifecycle—from system design and architecture to deployment, optimization, and long-term maintainability. Proficient in modern web technologies including **C#, ASP.NET Core, RESTful APIs, Angular, TypeScript, SQL Server, and Oracle**. I focus on writing clean, reliable, and maintainable code following industry best practices. Passionate about solving complex technical problems, improving system performance, and delivering solutions that are both user-centric and technically robust. I continuously invest in learning new technologies and enhancing my expertise to deliver scalable, secure, and future-proof systems.

Experience

T2 | Software Engineer – Full Time | [Nov, 2025 - Present]

- ✓ Worked on **SOUQ T2**, a major product of the company that provides **domain registration services** for **Saudi (.sa)** and **international domains, SSL certificates, business email solutions**, and related services.
- ✓ Developed and maintained **backend features** using **ASP.NET Core, Entity Framework Core**, and industry-standard **architectural and clean coding practices**.
- ✓ Integrated **domain operations** with external **EPP providers** (check, availability, register, renew, transfer) for both **local and international registries**.
- ✓ Built core modules including **cart management, pricing engine, SmartPackages, promotions, discount logic**, and end-to-end **payment flows (Moyasar / Apple Pay)**.
- ✓ Improved system performance using **Redis caching, asynchronous programming**, and **optimized database queries**.
- ✓ Implemented **structured logging, monitoring**, and **API documentation** using **Swagger / OpenAPI**.
- ✓ Collaborated closely with **product, QA, and front-end teams** following **Agile/Scrum** practices to deliver **scalable and reliable** product features.

Tameed | Mid-level Backend Developer – Full Time | [Mar, 2025 - Nov, 2025]

- ✓ **(Working under ArabWork company)**
- ✓ Developed backend modules for a **financial lending and crowdfunding platform** specializing in **debt-based financing**.
- ✓ Built secure and robust **RESTful APIs** using **ASP.NET Core** to support **business operations, loan workflows, investor dashboards, and payment processes**.
- ✓ Implemented **JWT authentication, authorization policies** to ensure **high-level security**.
- ✓ Collaborated with the **product team** to develop features related to **funding requests, borrower evaluation, payment schedules, and reporting modules**.
- ✓ Enhanced system **stability and scalability** by applying **DDD principles, clean code, and SOLID architecture**.
- ✓ Conducted **debugging, performance optimization, and database tuning** on **SQL Server**.
- ✓ Participated in **Agile ceremonies, code reviews, and continuous improvement efforts**.

Tahaluf AI Emarat Technical Solutions | Full Stack Web Developer - Full Time | [Mar, 2023 - Mar, 2025]

- ✓ Developed and maintained **full-stack web applications** using **HTML, CSS, Bootstrap, JavaScript, Angular, TypeScript, C#, and ASP.NET Core API**.
- ✓ Implemented **responsive designs** using **Bootstrap** to ensure **cross-device compatibility**.
- ✓ Built and integrated **RESTful APIs** with the front end for seamless **data communication**.
- ✓ Troubleshoot and resolved complex **technical issues**, including **performance optimization, debugging, and code refactoring**.
- ✓ Developed and executed **automated unit tests** to ensure **code quality and reliability**.
- ✓ Designed and implemented **Angular project architecture**, including **modules, components, services, and guards**.
- ✓ Participated in various major projects such as **Red Sea Global, Learning Management System (LMS), Student Information System (SIS), and Talent-Hub**.
- ✓ Contributed to **database management, front-end, and back-end development** ensuring **scalability and maintainability**.

Skills

- **Languages & Frameworks:** C#, ASP.NET Core API, MVC, Entity Framework Core, Angular, TypeScript, Angular Material, HTML, CSS, Bootstrap, JavaScript, Asynchronous Programming (async/await).
- **Testing & Methodologies:** Unit Testing, Agile Methodologies (Scrum).
- **Version Control:** GIT, TFS, GitHub.
- **Design & Architecture:** OOP, Domain-Driven Design, Onion Architecture, SOLID Design Principles, Design Patterns, Caching (Redis), Message Queueing (RabbitMQ), Authentication & Authorization (JWT Authentication), Code Review & Clean Code Practices.
- **Database Management:** Microsoft SQL Server, Oracle Database, Stored Procedures.
- **Scheduling Tools:** Job Scheduler, Hangfire.
- **Other Tools:** Microsoft Office, Postman, Swagger / OpenAPI.

Education

Bachelor's degree, Computer Science

Jordan University of Science and Technology
[Feb, 2019 - Oct, 2022]
Grade: **3.8 (Excellent)**

Training Courses

- **Full-Stack Web Development Training | Tahaluf Al Emarat Technical Solutions** [Sep, 2022 - Mar, 2023]
 - Web Page design (HTML, CSS, Bootstrap, JavaScript).
 - C# Programming Essentials.
 - C# Object Oriented Programming.
 - Database Design and Programming.
 - Angular Programming and Typescript.
 - Web Application Programming Interface (API).
 - Model View Controller (MVC).
 - Agile Methodology Scrum Master Program.
 - Time management and Multitasking Proposition.
 - Entrepreneurship.
- **Clean Coding Practices | LinkedIn**
- **C# Developer | Reed**
- **Entrepreneurship | Cisco Networking Academy**

Web Projects

- **ABH News | ASP.NET API, Angular | Associated with Tahaluf**
Secure news platform with user interaction.
- **Visitors | ASP.NET API, Angular**
Website visitor tracking and analytics platform.
- **Portfolio | HTML, CSS, JavaScript, Bootstrap**
Personal portfolio showcasing web development skills.
- **Scheduling | ASP.NET API, Angular**
Medical appointments and records system.
- **Herfa | ASP.NET MVC | Associated with Tahaluf**
Craft marketplace connecting customers and owners.
- **Blood Bank System | PHP | Graduation Project**
Blood donor and inventory management system.
